**DETAILED ACTION**  
**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS:

Claim 1: line 3, after "medium", insert --by a digital signal receiver--;

line 4, after "the digital signal", insert --by a digital modifier--;

line 6, after "method", insert --by a decoder--;

line 8, after "signal", insert --by a multiplexer--;

line 9, change "meat" to --meta--, and after "data", insert --by an up-sampler--;

line 10, after "prediction", insert --by an interpolator--;

line 13, after "frames", insert --by a fuser--.

Claim 6: line 4, after "representations", insert --by an identifier--;

line 6, after "representations", insert --by a determiner--;

line 7, after "a redundant representation", insert --by a modifier--.

Claim 12, line 3, after "encoder", insert --by an enhancer--;

line 4, after "frame", insert --by an analyzer--;

line 7, after "frame", insert --by an optimizer--;

line 9, after "encoder", insert --by an injector--;

line 10, change "meat" into --meta--;

line 11, after "signal", insert --by a describer--.

Claim 13, line 2, delete "11. (Original)";

line 4, after "encoder", insert --by an enhancer--;

line 5, after "frame", insert --by an analyzer--;

line 7, after "frame", insert --by an optimizer--;

line 9, after "the sequential frame", insert --by a fuser--.

The Examiner's Amendment is necessary to avoid a possible claim rejection under 35 U.S.C. 101 as not being tied to another statutory category (such as a particular apparatus).

### ***Response to Arguments***

2. Applicant's arguments, see Remarks (page 5), filed 8/28/2008), with respect to claims 3, 12 and 13 have been fully considered and are persuasive. The rejection of claims 3, 12 and 13 has been withdrawn.

### ***Allowable Subject Matter***

3. Claims 3, 6-10, 12, and 13 are allowed.

4. The following is an examiner's statement of reasons for allowance:

\* The rejected claims 3, 12 and 13 have been rewritten in independent form including all limitations of the based claims and any intervening claim;

\* The other rejected claims have been cancelled to place the application in allowance condition;

\* The present application provides a new method and system for enhancing/diffusing an image signal, which is capable of providing determinable-quality, lower bitrate, and/or otherwise improved operation in a standard compliance, yet efficiently adaptable and scalable manner (see specification, page 9, paragraph [023]).

Particularly, the new method and system comprise the following features, which the prior art taken either singly or in combination does not teach:

- fusing the standard decoded frame, the interpolated standard decoded frame, and one or more previously enhanced frames (see independent claim3);
- modifying a redundant representation to form a modified-representation such that the aspect is more completely conveyed by a series of compressed image representations (see independent claims 6 and 9);
- injecting a controlled alias signal component into an encoded video signal in the encoder; and describing the controlled alias signal component in the meta data associated with the encoded video signal (see independent claim 12);
- fusing the first frame and the sequential frame via an enhanced reconstruction technique such that the first frame and the sequential frame have a substantially consistent quality (see independent claim13).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
